

# Curriculum Vitae

## Personal information

Name / Surname  
Professional Email  
Home page  
Nationality  
Date of birth  
Gender

**Andrea Cremaschi**  
andreacremaschi87@gmail.com  
<https://andcre87.github.io/andreacremaschi.github.io/>  
Italian  
Nov 20th 1987  
Male

## Current Positions

Sep 2024– Now

**Assistant Professor (tenure track)**  
School of Science and Technology, IE University, Madrid, Spain.

## Previous Positions

Apr 2023 – Jul 2024  
Feb 2023 – Jul 2024  
Sep 2020 – Apr 2023  
Aug 2019 – Aug 2020  
Oct 2016 – July 2019

**Senior Scientist I**  
Singapore Institute for Clinical Sciences (SICS), A\*STAR, Singapore.  
**Assistant Professor (Adjunct)**  
Department of Paediatrics, National University of Singapore (NUS), Singapore.  
**Senior Research Fellow**  
Singapore Institute for Clinical Sciences (SICS), A\*STAR, Singapore.  
**PostDoc**  
Yale-NUS College, Singapore.  
**PostDoc**  
Department of Cancer Immunology, Institute of Cancer Research, Oslo University Hospital, Oslo (Norway) and  
Oslo Centre for Biostatistics and Epidemiology (OCBE), University of Oslo, Oslo (Norway)

## Education and Titles

28 Oct 2024  
Sep 2012 – Sep 2016  
Sep 2009 - Apr 2012  
Sep 2006 - Sep 2009  
Sep 2001 - Sep 2006

**Abilitazione Scientifica Nazionale**, Professore II fascia, Settore 13/D1-STATISTICA, MIUR (Italy), valid until 28 October 2035.  
**Ph.D. in Statistics**, School of Mathematics, Statistics and Actuarial Science (SMSAS), University of Kent, Canterbury, Kent (UK)  
Thesis title: “*Comparing computational approaches to the analysis of high-frequency trading data using Bayesian methods*”  
Supervisors: Prof. J. E. Griffin and Dr. A. Kume  
**Master Degree in Mathematical Engineering** (Laurea Magistrale in Ingegneria Matematica), Politecnico di Milano, Milan (Italy)  
Dissertation: “*Model-based clustering via Bayesian nonparametric mixture models*”  
Supervisors: Prof. A. Guglielmi and Dr. R. Argiento  
**Bachelor Degree in Mathematical Engineering** (Laurea Triennale in Ingegneria Matematica), Politecnico di Milano, Milan (Italy)  
Dissertation: “*On the problem of dataset record-linkage: a probabilistic approach*”  
Supervisors: Prof. A. M. Paganoni and Dr. F. Ieva  
**Maturità scientifica**. Ist. Giuseppe Peano, Cinisello B.mo, Milan (Italy)

## Research Interests

My research interests include both methodological and applied aspects of Statistics, particularly within the Bayesian framework (both parametric and nonparametric), using flexible models for inference in scenarios where the data present non-standard features. These include scenarios where the data present deviations from standard assumptions, such as normality, homogeneity, non-linear relationships and group-specific dependencies. These features are often encountered in biomedical studies, a primary focus of my work, due to the complex phenomena typically investigated in this field. Nevertheless, my interests extend across various domains, including econometrics and behavioural science among others.

A considerable portion of my most recent work focuses on the implementation of advanced, often semi-parametric, Bayesian models to real-life data applications. In particular, I have been involved in the study of large longitudinal cohorts involving children and their parents, collecting a wealth of information including biological samples, behavioural traits and socio-demographic characteristics. These datasets are highly heterogeneous as they involve mixed-type responses, a wide range of predictors and time dynamics. In this framework, the application of Bayesian nonparametric models allows for a more flexible fitting. The focus of my work is on detection of modifiable factors for early intervention. The fields of research I mostly focus on are translational neuroscience, metabolomics and child development.

Besides biomedical applications, I am also interested in the cost-effectiveness analysis of intervention strategies in the framework of Health Economics, application of machine learning techniques to imaging, as well as population density dynamics. Recently, I have been involved in projects related to these fields of study, currently in their submission phase.

Through my work experiences, I have developed a strong interest for applications of Bayesian Statistics to different types of problems. Indeed, the trust of my research is to enrich the field of Bayesian Statistics with appealing modelling strategies, as well as algorithmic solutions, devised to offer deeper insights in the investigation of modern problems.

## Publications

## Invited talks

at conferences

- 2025** – Dec, ??? Cremaschi A, Franzolini B *Dependent Dirichlet-multinomial Processes With Random Number Of Components*. CFE-CMStatistics 2025, London (UK).
- 2025** – Sep, 8 Cremaschi A, Franzolini B *Dependent Dirichlet-multinomial Processes With Random Number Of Components*. CLADAG 2025, Naples, Italy.
- 2025** – Sep, 4 Cremaschi A, Franzolini B *Dependent Dirichlet-multinomial Processes With Random Number Of Components*. SISBayes 2025, Padova, Italy.
- 2025** – Jun, 25 Cremaschi A, Franzolini B *Dependent Dirichlet-multinomial Processes With Random Number Of Components*. BNP14 2025, Los Angeles, USA.
- 2024** – Dec, 15 Cremaschi A, Franzolini B *Matrix-variate priors for flexible mixture modelling of grouped data*. CFE-CMStatistics 2024, London (UK).

<b>2024</b> – Jun, 25	van den Boom W, Cremaschi A, Thierry A <i>Doubly adaptive importance sampling</i> . EAC-ISBA Conference 2024, Hong Kong.
<b>2023</b> – Dec, 01	Cremaschi A, Wertz T, De Iorio M <i>Repulsion, Chaos and Equilibrium in Mixture Models</i> . CFE-CMStatistics 2023. Berlin, Germany.
<b>2023</b> – Aug, 01	Cremaschi A, Wertz T, De Iorio M <i>Repulsion, Chaos and Equilibrium in Mixture Models</i> . 6th International Conference on Econometrics and Statistics (EcoSta 2023). Tokyo, Japan.
<b>2018</b> – Dec, 14	Cremaschi A, Skånland S, Taskén K, Zucknick M. “Gaussian graphical models for the analysis of phospho-flow cytometry data from drug combination experiments”. CFE-CMStatistics 2018, Pisa (Italy).
<b>2017</b> – Dec, 18	Argiento R, Cremaschi A, Vannucci M. “A Hierarchical Nonparametric Approach for Robust Graphical Modelling”. CFE-CMStatistics 2017, London (UK).
<b>2016</b> – Dec, 9	Cremaschi A, Griffin JE. “Bayesian inference and prediction for high-frequency data using Particle Filtering”. CFE-CMStatistics 2016, Seville (Spain).
<i>seminars</i>	
<b>2024</b> – Dec, 11	Cremaschi A, Franzolini B <i>Matrix-variate priors for flexible mixture modelling of grouped data</i> . Department of Economics, Università degli Studi di Bergamo (Italy).
<b>2024</b> – Aug, 02	Cremaschi A, Wertz T, De Iorio M, Mozdzen A, Kastner G. <i>Repulsion, Chaos and Equilibrium in Mixture Models</i> . Department of Statistics, Seoul National University.
<b>2024</b> – Jun, 05	Cremaschi A, Wertz T, De Iorio M, Mozdzen A, Kastner G. <i>Repulsion, Chaos and Equilibrium in Mixture Models</i> . ISBA BNP Webinar (held online).
<b>2019</b> – Mar, 26	Cremaschi A, Argiento R, Vannucci M. “Hierarchical Normalized Completely Random Measures for Robust Graphical Modeling”. Department of Mathematics, University of Oslo, Oslo (Norway).
Jul, 19	Cremaschi A, Frigessi A, Taskén K, Zucknick M. “A Bayesian model for the Study of Drug-Drug Interactions”. Dept. of Mathematics, Politecnico di Milano, Milan (Italy).
Jul, 4	Cremaschi A, Frigessi A, Taskén K, Zucknick M. “A Bayesian approach to modelling drug interactions. An application to ovarian cancer data”. Institute for Molecular Medicine Finland (FIMM), Helsinki (Finland).
<b>2018</b> – Jan	Cremaschi A, Griffin JE. “Bayesian analysis of high-frequency financial data”. Dept. of Mathematics, Politecnico di Milano, Milan (Italy).
<b>2014</b> – May	Cremaschi A, Griffin JE. “Bayesian inference for integer-valued Lévy processes with non-Gaussian Ornstein-Uhlenbeck volatility modelling” Dept. of Engineering, Cambridge University, Cambridge (UK).
<b>2012</b> – Dec	Argiento R, Cremaschi A, Guglielmi A. “A “Density-Based” Algorithm for Cluster Analysis Using Species Sampling Gaussian Mixture Models”. CNR - IMATI, Milano, (Italy).

## Contributed talks

<b>2022</b> – Oct, 24	Cremaschi A, Wertz T, De Iorio M <i>Repulsion, Chaos and Equilibrium in Mixture Models</i> . BNP13 2022, Chile.
<b>2021</b> – June, 28	Cremaschi A, Argiento R, De Iorio M, Shirong C, Chong YS, Meaney MJ, Kee MZ (2021) <i>Seemingly Unrelated Multi-State processes: a Bayesian semiparametric approach</i> . ISBA 2021 (held online).
<b>2017</b> – Aug, 29	Cremaschi A, Frigessi A, Taskén K, Zucknick M. <i>A Bayesian model for the study of drug interactions. An application to ovarian cancer data</i> . ISBS 2017, Vienna (Austria).
Jul, 10	Cremaschi A, Frigessi A, Taskén K, Zucknick M. <i>A Bayesian model for the study of drug interactions. An application to ovarian cancer data</i> . ISCB 2017, Vigo (Spain).
<b>2016</b> – Jun, 19	Cremaschi A, Griffin JE. “Bayesian inference for high-frequency data using particle filtering”. 3rd Bayesian Young Statisticians Meeting (BAYSM), Florence (Italy).
<b>2014</b> – Apr, 28	Cremaschi A, Griffin JE. “Bayesian inference for integer-valued Lévy processes with non-Gaussian Ornstein-Uhlenbeck subordinator”. Research Student Conference (RSC) meeting, University of Nottingham, Nottingham (UK).

## Competitive Funding

<b>2025</b>	Ayuda Ramon y Cajal 2024. Awarded by “Ministerio de Ciencia, Innovación y Universidades”. PI: Andrea Cremaschi. Area: Ciencias Matemáticas (96.5/100).
-------------	--

<b>2025</b>	Proyectos de Generación de Conocimiento 2024. Investigación Orientada Tipo B. Area: Ciencias Matemáticas. PI: GOMEZ-ULLATE OTEIZA, DAVID. Title: Kolmogorov-Arnold Networks with application in weather forecasting (KAN4Met). Dr. Cremaschi is part of the team of researcher involved in this project.
<b>2025</b>	CIVICA short visits (7th call). Dr. Cremaschi to visit Bocconi University (Prof. Piccarreta and Dr. Franzolini). <a href="https://www.civica.eu/news-events/news-blog/detail/civica-announces-faculty-selected-in-seventh-call-for-faculty-short-visits">https://www.civica.eu/news-events/news-blog/detail/civica-announces-faculty-selected-in-seventh-call-for-faculty-short-visits</a>
<b>2024</b>	Ayuda Beatriz Galindo 2023. Awarded by “Ministerio de Ciencia, Innovación y Universidades”. Project title: <i>Bayesian analysis of grouped data in complex settings</i> . The grant could only be acquired if affiliated to a public University in Spain.
<b>2024</b>	Human Potential Programme FY23 Prenatal / Early Childhood Grant. Awarded by A*STAR. PI: Andrea Cremaschi. Quantum: SGD 486,200. Project title: <i>Children behaviour, emotional regulation and the complex interplay with maternal mental health</i> .
<b>2021</b>	SICS Emerging Principal Investigator award. Awarded by the Singapore Institute for Clinical Sciences (SICS), A*STAR. PI: Andrea Cremaschi. Quantum: SGD 150,000.

## Scientific Awards

<b>2025</b>	Shortlisted for the Falling Walls Science Summit 2025 <a href="https://falling-walls.com/breakthroughs">https://falling-walls.com/breakthroughs</a> , with the paper “From Past to Future: Digital Methods Towards Artefact Analysis”, published in <i>Digital Scholarship in the Humanities</i> , 39(4), pp.1026-1042.
<b>2019</b>	Lindley prize honourable mention for the paper “Hierarchical Normalized Completely Random Measures for Robust Graphical Modeling”, published in <i>Bayesian Analysis</i> , 14(4), 1271-1301, 2019.

## Scientific Activities

<b>Member</b>	
<b>2025-2027</b>	Secretary of the board of BNP-ISBA: the Bayesian Nonparametric Section of the International Society for Bayesian Analysis.
<b>Organiser</b>	
<b>2024</b>	Member of the scientific organising committee of <i>Satellite Workshop to ISBA World Meeting 2024</i> , 25 Jun 2024 - 28 Jun 2024, USI, Lugano, Switzerland. Session organiser: “Application-focused Bayesian modelling”.
<b>2024</b>	Member of the local organising committee of <i>Interpretable Inference via Principled BNP Approaches in Biomedical Research and Beyond</i> , 08 Jul 2024 – 02 Aug 2024, IMS/NUS, Singapore.
<b>2024</b>	Member of the local organising committee of <i>ISBA BNP networking meeting</i> , 30 Jul 2024 – 02 Aug 2024, IMS/NUS, Singapore.
<b>2023</b> – Nov, 29 May, 4	Contribution to the organisation of <i>Nutrition and Brain Health</i> , NUS, Singapore. Contribution to the organisation of <i>Military Performance and Resilience in a Warming World</i> , NUS, Singapore. Held on-board the Italian Navy Ship <i>Francesco Morosini</i> .
<b>2022</b> – Nov, 21	Support in the organisation of <i>Childhood Nutrition: Towards a Healthy Lifestyle</i> , NUS, Singapore.
<b>From 2022</b>	Organizer of the three-session track “Bayesian semi- and nonparametric modelling” for CM-Statistics, the International Conference of the ERCIM WG on Computational and Methodological Statistics. Joint with: <ul style="list-style-type: none"> <li>– 2022: B. Nipoti (University of Milan Bicocca) and F. Barrientos (University of Florida)</li> <li>– 2023 - 2024: F. Barrientos (University of Florida) and Guillaume Kon-Kam-King (INRAE, National Research Institute for Agriculture, Food and Environment, France)</li> <li>– 2024 - Now: F. Barrientos (University of Florida) and Guillaume Kon-Kam-King (INRAE, National Research Institute for Agriculture, Food and Environment, France)</li> </ul>
<b>2022-2023</b>	Session Organiser for the International Conference on Econometrics and Statistics (EcoSta), Japan.
<b>2014</b>	Seminar co-Leader for the Postgraduate and PhD seminars at the School of Mathematics, Statistics and Actuarial Science (SMSAS). University of Kent, Canterbury (UK).  Seminar Leader for the reading group: “Introduction to Stochastic Calculus”. School of Mathematics, Statistics and Actuarial Science (SMSAS). University of Kent, Canterbury (UK).

## Associate Editor

**From 2024**

**Referee**

**2024**

Associate Editor for the peer-reviewed journal *Statistics and Computing*.

Referee for the PhD thesis titled *Advancements in Bayesian Methods for Personalized Medicine* by Jiefeng Bi (Università degli Studi di Milano Bicocca).

**From 2023**

Referee for the peer-reviewed journals *Bayesian Analysis*, *Computational Statistics (COST)*.

**From 2022**

Referee for the peer-reviewed journals *Annals of Applied Statistics*, *Australian & New Zealand Journal of Statistics*, *Briefings in Bioinformatics*, *Statistics in Medicine*.

**Others**

**2024**

STAR Ambassador at A\*GA (A\*STAR Graduate Academy), “a vibrant community of student outreach participants committed to inspiring and engaging with future scientists”. Singapore.

## Visiting

**2025 – Jun 9-13**

Visiting Prof. Raffaele Piccarreta and Dr. Beatrice Franzolini at Bocconi University, Milan, Italy. Visiting supported by the CIVICA organisation, under the 7th call for faculty short visits.

**2022 – Aug**

Visiting Prof. Michael Meaney at The Douglas Research Centre, affiliated with McGill University and the Montreal West Island IUHSSC, Montreal, Canada.

**2019 – May**

Visiting Dr. Annalisa Cadonna at WU (Vienna University of Economics and Business).

**2018 – Jul**

Visiting Prof. Alessandra Guglielmi at the Dept. of Mathematics, Politecnico di Milano, Milan (Italy).

**2017 – May**

Visiting Prof. Tero Aittokallio and Dr. Krister Wennerberg at the Institute for Molecular Medicine Finland (FIMM), Helsinki (Finland).

**2013 – May**

Visiting Dr. Sara Wade and Prof. Zoubin Ghahramani at the Dept. of Engineering, University of Cambridge, Cambridge (UK).

## Teaching/Supervision

**From 2024**

Teaching the courses *Foundation Statistics and Probability* and *Introduction to Business and Social Analytics* at the School of Science and Technology, IE University, Madrid, Spain.

**2023/2024**

Ph.D. visit, Mozdzen A., project title: “Bayesian modelling of obesity, asthma, and hypertension in children”

- Supervisors: Gregor Kastner (University of Klagenfurt, Austria)
- Singapore-based Supervisors: Andrea Cremaschi, Maria De Iorio (NUS, A\*STAR)

The student visited the Singapore Institute for Clinical Sciences (SICS), A\*STAR, Singapore.

**2022/2023**

**2023/2024**

Lakshmanan G., project title: “Structural Equation Models”

- Supervisor: Andrea Cremaschi (NUS, A\*STAR)
- co-Supervisor: Maria De Iorio (NUS, A\*STAR)

The student visited the Singapore Institute for Clinical Sciences (SICS), A\*STAR, Singapore. In 2022/2023 as an intern; in 2023/2024 under the A\*GA - Singapore International Pre-Graduate Award (SIPGA) programme.

**2021/2022**

Co-supervision of final “capstone” projects of students from Yale-NUS college, Singapore.

Main supervisor: Prof. Maria De Iorio (NUS, A\*STAR).

- Yoon S: “Bayesian Multiple Response Model through Regression Graph Universal Estimator”.
- Ropion MDV: “Probability Theory as an Approximation of Reality”.

**2021/2022**

Co-supervision of final “capstone” projects of students from Yale-NUS college, Singapore.

Main supervisor: Prof. Maria De Iorio (NUS, A\*STAR).

- Yoon S: “Bayesian Multiple Response Model through Regression Graph Universal Estimator”.
- Ropion MDV: “Probability Theory as an Approximation of Reality”.

<b>2021</b> – Sep, 23	Masterclass on “Statistical Analysis of Questionnaire Data” for the Ministry of Education of Singapore (MOE), MOE Research Forum. Lecture (1h) by Prof. Maria De Iorio; Practical (1h) by Andrea Cremaschi.
<b>2020</b> – Dec	Lecture talk to the students of the course of Bayesian Statistics “A change-point random partition model for large spatio-temporal datasets”. Cremaschi A, Cadonna A, Guglielmi A, Quintana F. Politecnico di Mialno, Milan (Italy).
<b>2019</b> – Jul	Lecture talk to the students of the course of Bayesian Statistics “A Bayesian model for the Study of Drug-Drug Interactions”. Cremaschi A, Frigessi A, Taskén K, Zucknick M. Politecnico di Mialno, Milan (Italy).
<b>2018</b> – Nov	PhD lecture from “A Bayesian analysis of some nonparametric problems” by Ferguson, T. S. <i>The Annals of Statistics</i> (1973): 209-230. Dept. of Mathematics, University of Oslo (Norway).
<b>2017</b> – Aug-Dec	Masters Degree dissertation. Cominelli M. “Bayesian mixture models for the analysis of pFLOW data: an application to a Chronic Lymphocytic Leukemia dataset”. Supervisors: Guglielmi A and Cremaschi A. The student visited the Oslo Center for Biostatistics and Epidemiology (OCBE), Oslo (Norway).
<b>2014</b> – <b>2015</b>	Lecturer for the course Foundation Statistics (approximately 50 students and 48 contact hours). Set and marked the assessments and final examination. School of Mathematics, Statistics and Actuarial Science (SMSAS), University of Kent, Canterbury (UK).
<b>2015</b> – <b>2016</b>	Tutor for the course Stage 1 Mathematics. School of Mathematics, Statistics and Actuarial Science (SMSAS), University of Kent, Canterbury (UK).
<b>2013</b> – <b>2016</b>	Assessment and marking of undergraduate modules (Stage 1 Mathematics, ). School of Mathematics, Statistics and Actuarial Science (SMSAS), University of Kent, Canterbury (UK).

## Skills

Software	Experienced programmer in R, C/C++, Rcpp, Matlab, Python, BUGS.
Languages	English (fluent); Italian (mother tongue); Spanish (intermediate); Norwegian (beginner).
